Claim Rejections - 35 USC § 103

1. Claims 1-19,21-24,27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dahl et al (6,697,677) in view of Wang et al (5,462,545).

Figure 7 of Dahl is considered to show all of the features of the above claims except for the explicit mention of an extendable member that curls upon itself when in the deployed state. Wang teaches a electrode system where the electrode can coil. To use such a coiling electrode with the device of Dahl would have been obvious since such would be a simple substitution of prior art elements to form a combination that would yield a predictable result. Further, to use a plurality of extendable members would be obvious in order to stimulate a greater amount of tissue.

2. Claims 25,26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dahl et al (6,697,677) in view of Wang et al (5,462,545) and further in view of Giele et al (5,531,783).

Giele teaches a coating which dissolves in the body and which, before dissolving, helps retain the tines close to the lead body, see figure 1c. To use such a coating with the device of Dahl et al and Wang et al would have been obvious since such a coating would allow for the electrodes to be properly positioned before they coiled.

Since new rejections have been made, this action is not made final.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to /Scott M. Getzow/ whose telephone number is (571) 272-4946. The examiner can normally be reached on M-F, 9-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Angela Sykes can be reached on (571) 272-4955. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
